

ERASMUS+

YOUTH EXCHANGES

*Are you an active group of young people (age **18-30**) who is motivated to bring about **socio-ecological change**?*

*Are you interested in getting to know the **opportunities** offered by the **Erasmus+** programme of the EU for **non formal learning and intercultural exchange**?*

We can help you bring your ideas to an European level and foster the change!

WHAT DO WE OFFER:

Find out more about Youth Exchanges by clicking on the flag:

A series of 3 initial meetings: *

1

Get to know-each other and CAMBIO e.V.

2

What is the Erasmus+ Programme? Which opportunities are there for my group?

3

What social or environmental issues are important to us? What skills or knowledge would we like to acquire in this regard?

* And a looot of fun!

...If after this first 3 meetings you feel motivated and engaged we can plan a Youth Exchange together!

Erasmus+
Enriching lives, opening minds.

CAMBIO e.V.

Aktionswerkstatt für Umweltschutz
und Menschenrechte

ABOUT US:

CAMBIO e.V. is a non-profit association based in Dresden.

As CAMBIO e.V. we organize different activities in the areas of **ecological sustainability and social justice**. We support **Global Citizenship Education**, a holistic educational concept and pedagogical answer to the challenges we face due to the increasing globalization of all life processes.

CAMBIO e.V. has recently started to move into the galaxy of Erasmus+ projects, focusing in particular on youth exchanges and youth workers mobilities. The aim is to **promote international cooperation**, enhance **personal and professional development**, and **broaden horizons by providing funding for short-term educational and training experiences in other European countries**.

Participating in Erasmus+ projects provides individuals with the opportunity to enhance personal and professional growth through international mobility, **language development**, and **cultural exposure**, while also gaining **financial support**. The exchanges can focus on very different topics starting from inclusion of marginalized groups, passing from upcycling techniques, fair fashion, democracy and participation, and in general all what is connected with ecological and social justice.
